Don't Let The Sun Go Down On Me Tab Chords And Lyrics By Elton John

```
Intro - C - C/A+ - Am - F
I can't light – no more of your darkness
All my pictures - seem to fade to black and white
I'm growing tired - and time stands still before me
Frozen here - on the ladder of my life
it too late - to save myself from falling
I took a chance - and changed your way of life
But you misread - my meaning when I met you
Closed the door - and left me blinded - by the light
                      C/A
Don't let the sun - go down on me
                                      D7
Although I search myself - it's always someone else I see
                                Dm7 G
                                                           C/A+
I'd just allow a fragment of your life ----- to wander free
                               Dm7 Em F
                                                G C - C/A+ - Am - F

I can't find – all the right romantic lines
But see me once - and see the way I feel
Don't discard me - even if you think I mean you harm
But these cuts I have - they need love - to help them heal
